Summary

Recent computer science graduate with passion for developing scalable web applications and working across the full stack. I've built several full stack apps from ground up. My passion for development is unmatched. Every day I wake up pumped to collaborate, design and code. I love every aspect of bringing an idea to fruition and find each step of the way exciting.

Skills

- Front-end** React.js, Redux.js, HTML5, CSS, ChakraUI
- Back-end** GraphQL, Prisma, Apollo, Node.js, Express.js, Firebase
- Databases** MongoDB, PostgreSQL

Personal Projects

Gigapost [live] [github]

A SOCIAL BLOG BUILT WITH MERN STACK

- Create, update, delete, comment and like other people's posts
- Redux is used for managing state and styling is done with ChakraUI
- Tests are written in jest and cypress

Thessa [live] [github]

A FULL STACK PERSONAL MANAGEMENT SYSTEM BUILT WITH REACTJS AND FIREBASE

- The application has similar functionality as Todoist
- Authentication and authorization is implemented with firebase authentication
- Cloud Firestore is used for database management
- UI is built with React and styled with ChakraUI and SASS

Lount [github]

A FULL STACK CHAT APPLICATION BUILT WITH REACTJS AND GRAPHQL

- Backend is built with Apollo GraphQL and uses graphql subscriptions for sending and receiving messages in real time
- PostgreSQL and latest Prisma 2 ORM is used for designing database
- Frontend is built with Reactjs and Typescript and ChakraUI is used for styling

Portfolio Website [live] [github]

THIS IS MY PERSONAL PORTFOLIO BUILT WITH GATSBY.JS

- Used github actions for continuous integration and continuous deployment
- It is blazing fast.

Experience

Art Of Living Volunteer

Kurukshetra, India

HELPED WITH ORGANISING WORKSHOPS AND REACHED OUT PEOPLE IN NEED

July 2018 - present

Online T-shirt business

Delhi, India

DESIGNED AND SOLD QUIRKY GRAPHIC TSHIRTS ON TEESPRING.COM

April 2016 - July 2016
